SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

OVERVIEW

In October 1989, the 1989-90 questionnaire was mailed to the 1,300 departments offering political science in four-year colleges and universities in the United States. There were 697 valid questionnaires returned, for an overall response rate of 54 percent. Ph.D. departments responded at a rate of 87 percent; masters departments at 90 percent; undergraduate political science departments at 34 percent; and undergraduate social science and combined departments at 65 percent.

The data is summarized below for all departments (N=697) and then for each of seven subsets:

Ph.D. departments with 21 or more faculty ..... (N=69)
Ph.D. departments with 20 or less faculty ..... (N=40)
Masters departments with 11 or more faculty ..... (N=63)
Masters departments with 10 or less faculty ..... (N=74)
Undergraduate political science departments in public institutions ..... (N=70)
Undergraduate political science departments in private institutions ..... (N=185)
Undergraduate social science and combined departments ..... (N=181)
